```java
Public class sumof Numbers 1
{
Public static void main (string args[] )
{
int n1 = 225, n2 = 115, sum;
Sum = n1 + n2;
system.out.println ("The sum of number is:
                                    " + sum);
}
}
```

output.

The sum of number is : 340
